Subject: HB6690

To Whom it May Concern,

It is the politically correct thing to do by approving HB6690. Children that have no voiced in the court room because they are minors have someone like social services speak on their behalf. Lets fo the same for animals, they deserve the right to be protected and treated fairly. With HB6690 in place, it will get the message across that animal cruelty is a real thing and that there now will be a voice for abused and mistreated animals. Thank you for your time.
